

# On Demand Child Care Training

*Featured module:*

## New Jersey Child Care Subsidy Health & Safety Training

All child care professionals are responsible to keep the children in their care healthy and safe. Individuals who care for and teach children need to know how to

- 1) create safe spaces,
- 2) use safe practices with children,
- 3) develop and implement daily illness prevention and management strategies,
- 4) plan to keep children safe if an emergency occurs.

This six-hour module provides an overview of required health and safety topics for New Jersey child care professionals.

Eligible for CEUs  
Accepted for CDA

This module is available at no cost to professionals who work in child care centers and family child care homes in New Jersey.

On Demand Web Lessons

**Welcome to your professional learning experience with Better Kid Care!**

The professional development hours awarded by Better Kid Care (one or two hours) include time spent reading content, watching module videos, checking your knowledge, completing reflection and application exercises, and taking the post assessment. Because some of these activities may be completed away from the screen, total hours awarded may not equal dedicated screen time.

Research shows that professionals who continue learning offer higher quality care to children and youth. Our online lessons were created for professionals like you who want to learn to enhance programs for children and youth. No more than 9 hours of On Demand professional development will be awarded in one calendar day.

Enjoy your learning experience!
